The space-saving design
This product uses space-saving design, you don't have to worry about placement.

Convenient Mobile Printing
Including a Wi-Fi dongle, the product is able to connect wirelessly to your smartphone, ipad, or a wireless computer to perform mobile printing.

This function is unique to A1NW only

Enhanced auto crop / deskew Feature
The Avision's innovative intelligent copy/scan allows you to insert your document easily to the feeder , and then the next second a perfect copy/scan can be done automatically. If a document is not inserted correctly, the image can be automatically cropped and straightened during scanning. All these features let you complete your copy/ scan efficiently and effectively.

Remote Device Management via the Embedded Web Page
The product provides a convenient way to view the supplies status, scan count, and copy count to help you maintain the product well. By simply typing the machine's IP address in the URL field of your browser, the product's embedded web page will be prompted.

Save approximately 41% of operating time
No need to flip the cover and press to start; just print as soon as you place it. This product provides excellent efficiency, saving you time, and can become your reliable working partner.

Outstanding ID copying technology
Place your ID card easily into the feeder, a crispy and excellent copy result can be delivered since the product is built-in with the auto crop and deskew function to straighten the image automatically.

Clear, High-Quality, Professional Printing and Copying
The Avision A1 series MFP uses advanced technology and offers excellent printing and copying quality. Whether it's a text file, a picture, or a mixture of pictures and text, all can achieve outstanding results that are clear and high-quality.
