

Your portable duplex scanning solution
up to legal size

Features:

- Scan document up to Legal size (8.5 x 14 in., 216x 356 mm)
- Scan all documents in color mode
- LED light source requires no warm-up time
- Support long page scanning up to 118" for 300 dpi
- Scan documents (52~105 g/m²,) and plastic cards (up to 0.76 mm)

A mobile scanner that scans anywhere, anytime

Powered by a rechargeable Li-Ion battery at just over 12" long and weighing just over 1.32 lb., the Avison ScanQ DW is small and lightweight to be packed into your briefcase and lets you digitize your documents from just about anywhere, anytime.

No power cord required

The Avison ScanQ DW is powered by a rechargeable Li-Ion battery. No external power adapter and cords are needed!

A duplex scanner suited for document and photos

Thanks to the advanced straight paper path and image processing technology, documents with varies sizes and weights can be scanned, appropriately cropped, and ready to use. You can scan your business cards, receipts, photos, invoices, newspaper clipping, or documents up to legal size (14").

No warm up needed and fast scan speed

The LED illumination system not only saves power, it doesn't require any warm up time. The ScanQ DW is ready to go as soon as you turn it on and it's fast too! It only takes a few seconds to scan an A4 size document.

Convenient mobile scanning

With a built-in Wi-Fi module, the ScanQ DW is able to wirelessly connect to your mobile device and lets your mobile device directly instruct a scan and receive a scanned image.

Scan to clouds via PaperAir

Alternatively, the ScanQ DW is able to connect to your computer to access advanced image processing features. With PaperAir, you can scan and send the images to E-mail, printer, and popular cloud servers including Google Drive, Evernote, Dropbox, and Microsoft SharePoint to share your documents fast and easily. What is best, with the built-in OCR (Optical Character Recognition) engine, the PaperAir allows you to create a full-text searchable file in just one button.

What we have bundled

The ScanQ DW series comes with Avison PaperAir, PaperAir App.

ScanQ DW

Avision's PaperAir

-PaperAir lets you scan and save your images to cloud servers for fast and easy accessibility from just about anywhere!

The PaperAir main screen

The scanner comes with an easy-to-use PaperAir software application. With a simple press on the scanner button, PaperAir allows you to scan and send your image to your favorite destinations including printer, e-mail, a shared folder, and popular cloud servers such as *Google Drive™, Dropbox, Evernote, OneDrive, Office 365, SharePoint, or FTP. What is best, a searchable PDF file can be converted via the OCR (Optical Character Recognition) process.

PaperAir App

Simply download PaperAir app from Google Play or App Store and install it onto your mobile device. PaperAir app lets your mobile device instruct a scan and receive a scan image.

Enable [Wi-Fi] from [Settings] of your wireless computer, smartphone, or tablet and then choose Avison-xxxx to be your network name (SSID). Tap the PaperAir App () on the screen to launch the Scan Application. The main window will be displayed.

Check if the default settings meet your requirements. If not, change the scan settings to fit your specific scanning task. Finally, tap the [Start scan] button to start a scan.
